Agatha Christie: A Brief Biography

Agatha Christie was born on September 15, 1890, in Torquay, England. She was the youngest of three children in a comfortable middle-class family. Christie's early exposure to literature—her mother was an avid reader and her father a well-educated man—ignited her passion for writing.

In 1914, Christie began to write novels while working as a nurse during World War I. Her first successful novel, "The Mysterious Affair at Styles," introduced the world to Hercule Poirot, a character that would become one of her most famous detectives. Over the next few decades, Christie would publish numerous novels, short stories, and plays, solidifying her reputation as the "Queen of Crime."

She passed away on January 12, 1976, leaving behind a legacy that includes over 80 novels, 150 short stories, and numerous adaptations for stage and screen.
