The Concept of Angels on Assignment

The concept of angels on assignment pertains to the belief that angels are specifically commissioned by God to perform particular tasks or missions on earth. Unlike the generic idea of angels as celestial beings, this concept emphasizes their active roles as divine agents sent to intervene, protect, guide, or deliver messages to humanity. The notion is deeply rooted in various religious traditions, where angels serve as intermediaries between the divine and human realms. Understanding angels on assignment involves exploring their purpose, scope of activity, and impact on human lives and spiritual affairs.

distinguishes them from angels that may simply exist in heaven without direct interaction with the human world.
