Understanding Authors Purpose

Before we dive into writing prompts, it's vital to understand what authors purpose means. The author's purpose refers to the reason an author decides to write about a specific topic. It guides their writing style, tone, and overall message. There are generally four primary purposes:

- **To Inform:** This purpose is about providing information or educating the reader on a specific subject. Examples include articles, textbooks, and reports.
- **To Persuade:** When the author aims to convince the reader to adopt a particular viewpoint or take action, their purpose is persuasive. This is common in opinion pieces, advertisements, and political speeches.
- **To Entertain:** Some authors write purely for enjoyment and amusement. Fictional stories, plays, and poems often fall under this category.
