2. Republic

A republic is a form of democracy where representatives are elected to make decisions on behalf of the citizens. This type emphasizes the rule of law and individual rights.

Key Principles of Democracy

Understanding the core principles that underpin democratic systems can help clarify how they function. These principles include:

1. Popular Sovereignty

The idea that government derives its power from the consent of the governed. This principle reinforces the democratic notion that citizens have a voice in their governance.

2. Limited Government

The government's powers are restricted through laws and a constitution to protect individual freedoms. This ensures that governmental authority does not infringe upon personal rights.

3. Individual Rights

Democracies emphasize the protection of individual rights and freedoms, such as freedom of speech, religion, and assembly.

4. Equality Before the Law

Every citizen is subject to the law, and no one is above it. This principle ensures fairness in the judicial system.
