Understanding Nouns

Nouns are words that name people, places, things, or ideas. In the English language, nouns are categorized mainly into two types: common nouns and proper nouns.

What are Common Nouns?

Common nouns refer to general items or concepts. They do not specify a particular entity and are not capitalized unless they begin a sentence. Common nouns can be classified into several categories:

- People: teacher, doctor, child
- Places: city, school, park
- Things: book, car, apple
- Ideas: happiness, love, freedom

For example:

- The dog barked loudly.
- She read a book at the library.

What are Proper Nouns?

Proper nouns, on the other hand, refer to specific names of people, places, organizations, or sometimes things. These nouns are always capitalized, regardless of where they appear in a sentence. Proper nouns help provide clarity and specificity, allowing readers to know exactly what or who is being referred to.

Examples include:

- People: Sarah, Dr. Smith, Michael
- Places: Paris, New York, Mount Everest
- Organizations: United Nations, NASA, Red Cross
- Events: Christmas, Independence Day

For example:

- Sarah went to Paris for vacation.
- NASA launched a new rocket.
