CompTIA Security Exam Dates 2023 Schedule

Unlike some certification providers that offer fixed exam dates, CompTIA Security+ exams are available year-round, providing significant flexibility to candidates. The 2023 exam schedule is structured to allow testing at Pearson VUE testing centers globally or through online proctoring options. Candidates can choose dates that best fit their preparation timeline, subject to availability. It is important to note that while there are no fixed monthly dates, scheduling early is recommended due to demand fluctuations during peak periods.

Testing Windows and Availability

CompTIA Security+ exams can be taken at any time during the year as long as the candidate successfully schedules an appointment with an authorized testing center or opts for online testing. The availability depends on the region and the testing center's capacity. Generally, testing centers operate six days a week, and online proctored exams may be available 24/7.

Recommended Registration Timeline

To secure preferred dates, candidates should register at least two to four weeks in advance. This ensures adequate time for preparation and avoids last-minute scheduling conflicts. Early registration is especially critical during holiday seasons and year-end when testing demand tends to increase.

Candidates can cancel or reschedule their exam appointments up to 24 hours before the scheduled time without penalty. Changes made within 24 hours of the exam may incur fees or result in forfeiture of the exam fee. Retaking the Exam

If a candidate does not pass the exam on the first attempt, they may retake it after a waiting period of 14 days.
