2. The Articles

The main body of the Constitution consists of seven articles, each addressing different aspects of the government structure:

- Article I: Establishes the Legislative Branch (Congress).
- Article II: Establishes the Executive Branch (President).
- Article III: Establishes the Judicial Branch (Supreme Court).
- Article IV: Addresses states' powers and limits.
- Article V: Outlines the process for amending the Constitution.
- Article VI: Establishes the Constitution as the supreme law of the land.
- Article VII: Details the ratification process.

3. The Amendments

The Constitution includes amendments that protect individual rights and address social issues. The first ten amendments, known as the Bill of Rights, were ratified in 1791 and guarantee fundamental rights such as freedom of speech, religion, and the press.

Subsequent amendments have expanded civil rights and addressed issues such as voting rights and presidential succession.
