How to Cook Quinoa

Cooking quinoa is straightforward, and it can be done in a few simple steps. Here's a step-by-step guide on how to prepare quinoa:

Ingredients

- 1 cup quinoa
- 2 cups water or broth
- Pinch of salt

Instructions

1. **Rinse the Quinoa:** Place the quinoa in a fine-mesh strainer and rinse it under cold water for about 2 minutes. This helps remove the natural coating called saponin, which can impart a bitter taste.
2. **Boil Water or Broth:** In a medium saucepan, bring the water or broth to a boil. Adding broth enhances the flavor of the quinoa.
3. **Add Quinoa and Salt:** Once the water is boiling, stir in the rinsed quinoa and a pinch of salt.
4. **Simmer:** Reduce the heat to low, cover the pot, and let it simmer for about 15 minutes, or until the quinoa has absorbed all the liquid.
5. **Let it Rest:** Remove the pot from heat and let it sit, covered, for an additional 5 minutes. This step allows the quinoa to steam and become fluffy.
6. **Fluff with a Fork:** Use a fork to gently fluff the quinoa before serving.
