- **Early Beginnings:** Some believe that cornhole evolved from a game called "bean bag toss," which was played by Native Americans. The game involved tossing bags filled with corn or beans into holes in the ground.

The term "cornhole" itself has a somewhat controversial etymology. It is widely believed that the name derives from the use of corn kernels as the filling for the bags used in the game. However, the term also has alternate interpretations, which can lead to humorous misunderstandings. Despite the potential for confusion, the name has become firmly entrenched in American culture.
